In regards to claims 21-24, 26-29, 39, 42, 45-47, and 66, the prior art of record does not teach a calibration checking device, comprising: a calibration checking unit releasing a calibration checking gas of known composition into the gas analyzer, and an enabling mechanism actuated by use of the calibration checking unit enabling operation of the gas analyzer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
